

Sponsor Website

Dashboard Features

- Key trial parameters summarised in one page
- Graphical overview of trial activities
- Live update of all data automatically or on demand
- Three views of trial data:
 - Trial Status – general usage and compliance info
 - Statistics – subject activity, signups, data submissions
 - Key Performance Indicators – customised to trial questions
- Viewable by site or for trial as a whole

KPI Customisation

- Any multi choice question from diary can be represented graphically with key outcome highlighted
- Any numeric scale response can be shown graphically or textually as percentage above/below a threshold value

- Displayed KPIs can be selected by sponsor from those defined for phone diary

Trial Status and Statistics fixed views shown for all trials

Key Performance Indicators customisable to trial diary

KPI Definition

- Question type determines available KPI views
- KPI queries developed by t+ in conjunction with diary
- Sponsor can select which resulting KPIs are shown
