

WristCare Nurse Call System

WristCare Nurse Call is a powerful alarm system designed specifically for residential care facilities including ExtraCare schemes, Intermediate Care and Nursing Homes.

Key safety features:

- ✓ Manual Alarm button is always to hand, even after a fall
- ✓ Wandering Alarm monitors individuals not doors: others can come and go freely
- ✓ Deterioration Alarm if client appears unconscious day or night
- ✓ Off Wrist alarm compliance management and audit
- ✓ Activity Alert if client wakes up and gets out of bed
- ✓ Wellness Monitor improved assessments & plans (optional)

Key benefits:

- Safety and Efficiency** WristCare monitors clients continuously, leaving staff to care for clients proactively, ensuring those clients who most need help at a particular time can receive it.
- Self Confidence** Clients and families are reassured that help will arrive when needed. Wellness improves.
- Wandering Detection** WristCare provides reliable wandering detection without imposing on those not at risk.
- Integration** WristCare can integrate with existing cabling and standard phone systems; this simplifies installation and maintenance and avoids wasteful duplication.
- Non Institutional** No boxes on walls. Pull cords and door locks minimised. Your home feels like a home.

WristCare is made in Finland by IST
