

WristCare Personal Safety System

Client Profile:

A vulnerable person who is considered to be at risk from bogus callers or has declining independence.

Key features:

- ✓ Manual alarm
- ✓ Low battery alarm
- ✓ Non-compliant alarm
- ✓ Deterioration alarm
- ✓ Fully compliant with all UK Community Alarm services
- ✓ Optional: Intruder / Panic alarm
- ✓ Optional: Wellness monitor

Social Services benefits:

Client can remain at home reassured by personal protection 24/7.

If a user is unable to manually call for help due to unconsciousness, an inactivity alarm would be generated, ensuring help is always provided to the client. This reduces the client's fear of not being found therefore promoting more confidence, activity and independence.

The system can be upgraded to incorporate additional alarms and lifestyle monitoring as and when required.
