

WristCare Wandering Detection System

Client Profile:

A vulnerable person who is considered to be at risk if they are prone to wandering.

Key features:

- ✓ Sends alarm when client has left home
- ✓ Can be set for day, night-time or both
- ✓ Allows other people to come and go freely
- ✓ Non-Compliance alarm
- ✓ Inactivity alarm
- ✓ Optional: Wellness monitor

Social Services benefits:

Protection is being provided to the client from the dangers and risks associated with wandering.

The client can remain living in their own home supporting the government objective of allowing people to remain independent and in their own home for as long as possible.

The system is flexible and can be programmed to accommodate individual needs.

Care staff and family members can come and go freely without generating alarms.

Alarms can be sent to any community alarm centre to begin an escalation procedure.

Code	Description
7120	WristCare Wandering Detection System
7004	WristCare Wandering System incl Wellness
1234	Falls Prevention Night Light (optional)
