UK PAVILION SURGICAL SIMULATION
PROGRAMME ABHI STAND Z1D30

The UK Pavilion, led by the Association of British Healthcare Industries (ABHI), is showcasing the UK's vibrant, diverse and highly innovative medical technology industry from its fully equipped operating theatre. This will provide a stage for a programme of simulated surgical demonstrations led by leading UK clinicians and act as a hub for interactive audience participation.

MONDAY 25 JANUARY

13:15 - 14.00

Shoulder Arthroscopy - Mr Ian Bayley

An interactive session demonstrating the use of the SIMBIONIX simulator in tracking and practising basic and advanced shoulder arthroscopy skills and procedures: come and have a go.

Healthcare

11:00 – 12.00

Mr Ulrich Rosendahl is demonstrating a Personalised External Aortic Root Support (PEARS) procedure, using an Exstent device.

TUESDAY 26 JANUARY

11:00 – 12.00

Mr Ulrich Rosendahl is demonstrating a Personalised External Aortic Root Support (PEARS) procedure, using an Exstent device.

13:00 – 13.45

Mr Shaw Somers will demonstrate Endoscopic Suturing Skills for Gastric Bypass.

Healthcare

15:00 – 16:00

Demonstration of Touch Bionic's i-limb™ bionic hand.

With five motorised multi-articulating fingers, the i-limb™ hand looks and moves like a natural hand, assisting users to perform their professional and domestic tasks as well as their social and leisure activities.

WEDNESDAY 27 JANUARY

12:30 – 13.15

Dr Mark Earley will be demonstrating a minimally invasive interventional cardiac procedure: The Transeptal Puncture.

Healthcare

INTRODUCTION

WELCOME TO ARAB HEALTH 2016

I am delighted to welcome you to Arab Health 2016 and introduce you to the UK delegation.

Arab Health continues to attract many organisations from the dynamic and diverse life sciences industry operating in the UK. This industrial base creates a powerful flow of innovation developed through the world's most productive research base. These companies are keen to meet to discuss international partnerships.

We have once again assembled our impressive model operating theatre. It will allow demonstrations of the latest and best of innovative UK technology and expertise. The operating theatre can be found on the ABHI stand in the UK Pavilion and the schedule of surgical simulations can be found on page 4.

The stand also accommodates a number of private meeting rooms as well as an area dedicated to UKTI's partnering meetings. Most of the 200+ UK companies participating and exhibiting at Arab Health 2016 are located in the following halls:

Zabeel Hall 1 and Sheikh Maktoum Hall – The UK Pavilion, now in two locations and organised by ABHI for medical technology companies with feature areas from Scottish Development International, Invest Northern Ireland, and Welsh Government. Also in Zabeel Hall is the Medilink UK Yorkshire & Humber group. ABHI and UK Trade & Investment (UKTI) are located on the ABHI Support Stand in Zabeel Hall 1.

Zabeel Hall 4 - GAMBICA has organised a satellite pavilion within MEDLAB for companies offering laboratory technologies.

Main concourse – Healthcare UK will have a stand outside Hall 6, which will also include a space for partnering meetings. UKTI will also have representation on the stand.

This directory is designed to help you to easily locate UK exhibitors, their profiles and contact details by name, hall location and product category. I hope you are able to meet as many of them as possible, and see for yourself why UK companies, products, and services are world leaders in the global medical and healthcare industry.

Enjoy the show.

Peter Ellingworth,
Chief Executive, ABHI

KEY ORGANISATIONS

ABHI (Association of British Healthcare Industries)

Zabeel Hall 1, Stand Z1D30
Sheikh Maktoum Hall, ME14

The Association of British Healthcare Industries (ABHI) is the industry association for the medical technology sector in the UK. We represent companies whose output makes up for around 85% of the industry's total. Our membership includes some of the leading multinational businesses in the sector in the UK, right the way through to small and medium sized enterprises (SMEs). Our aim is to promote the rapid adoption of medical technologies to ensure optimum patient outcomes throughout the UK and in key global markets. ABHI membership is open to manufacturers as well as service companies involved in the sector – such as distributors, professional groups, and lawyers.

ABHI was formed in 1989 to address the industry's need to engage with the fast moving regulatory landscape and to support UK companies export their products around the world. ABHI has since grown and now has teams focusing on: UK market affairs; research and innovation; international policy; communications and public affairs; technical and regulatory issues; environmental issues; and events and exhibitions. To identify UK partners for success, please contact ABHI.

KEY ORGANISATIONS

British In-Vitro Diagnostics Association (BIVDA)

Zabeel Hall 7, Stand Z7J15

BIVDA is the national industry association for companies with major involvement and interest in the in-vitro diagnostics (IVD) industry, representing more than 95% of the industry and close to 150 organisations ranging from British start-up companies through to UK subsidiaries of multinational corporations. BIVDA members currently employ over 8,000 people in the UK, with a total industry turnover of approximately £900 million.

As the national association, BIVDA represents the UK IVD industry to Government, professional bodies and organisations, the public, and at the European Diagnostic Manufacturers Association (EDMA). BIVDA also provides support to members on regulatory matters – particularly the new European IVD Regulations, and all aspects of market access.

Diagnostics – making a difference

BIVDA pursues a strategy of raising awareness of the value of diagnostics within healthcare, from both a clinical and cost utility perspective. This value is increasingly recognised, particularly in the areas of personalised medicine and antimicrobial resistance (AMR) – in both areas in-vitro diagnostics are seen as valuable tools to be used when making clinical decisions. Exciting opportunities for IVDs exist in disease diagnosis, screening, prevention, and monitoring of disease. Cardiovascular risk, cancer, diabetes, and infectious diseases are just a few of the areas where real breakthroughs are proving possible. BIVDA works with industry and all interested bodies to ensure that these opportunities are not missed.

KEY ORGANISATIONS

Gambica

Zabeel Hall 7, Stand Z7J15

The British participation at MEDLAB is organised by GAMBICA, the UK association for the instrumentation, control, automation, and laboratory technology industries.

GAMBICA has a membership of over 200 companies including the major multinationals and a significant number of smaller and medium sized companies.

The scope of the association covers the five principal sectors of the industry:

- Industrial automation products and systems
- Process measurement and control equipment and systems
- Environmental analysis and monitoring equipment
- Laboratory technology
- Test and measurement equipment for electrical and electronics industries

Within these industry sectors, specific product or technical issues are addressed through Association Groups.

We will be pleased to guide you to our exhibitors, to members of our association, and to other British companies in the clinical laboratory supply industry. Please visit our information stand Z7 J15.

KEY ORGANISATIONS

Healthcare UK

Concourse, Stand CC60

The UK is internationally renowned for delivering excellent healthcare. Our National Health Service (NHS) is the world's largest integrated health system. It has provided high-quality services for nearly 70 years, supported by academia and innovative commercial healthcare companies. This partnership creates a breadth and depth of expertise that no other country can match.

Healthcare UK is your route to accessing this expertise. Whatever type of health facility, service, or training programme you are planning, we can bring together the right UK organisations to meet your needs. Our position in government gives us an excellent platform to support and promote international collaborations, working with UK Trade & Investment's (UKTI) international network of offices in 107 markets around the world. As a joint initiative between the UK Government's Department of Health, NHS England and UKTI, we connect UK expertise to business opportunities, drawing on our broad network across the NHS, the private sector, and academia.

To find out how you can draw on UK expertise to extend, improve and transform healthcare provision in your country, please visit us at our stand on the concourse, or contact:

KEY ORGANISATIONS

Invest Northern Ireland

Zabeel Hall 1, Stand Z1G10

Northern Ireland is a prime location for the Life and Health Sciences sector. Our world-class companies and universities have proven experience of delivering innovative research, products, and services to global customers. Specialisms include Precision Medicine, Diagnostics, Connected Health, Clinical Trials, and Data Analytics. The region has a strong tradition of technological innovation in medical devices and today researchers are at the forefront of convergent technologies, merging electronics, telecommunications and medical devices for personal healthcare. Invest Northern Ireland is the economic development agency for the region, promoting inward investment and trade with Northern Ireland from our extensive network of overseas offices.

KEY ORGANISATIONS

Medilink UK

Zabeel Hall 1, Stand Z1G57

Medilink UK, the largest UK health technologies business network, provides a gateway not only to innovative UK healthcare and life science companies, but also to the National Health Service (NHS), and to leading science and technology centres of excellence. Operating from each UK region, it employs innovation experts possessing the scientific, health technology, and market access knowledge to help companies across the world to accelerate technology adoption and market penetration. Medilink UK works with key UK government agencies such as Innovate UK (UK Innovation Agency), the National Institute of Health Research (NIHR), the National Centre for Clinical Excellence (NICE), the Medicines and Healthcare products Regulatory Agency (MHRA), and UK Trade & Investment (UKTI) to assist overseas companies to navigate the UK innovation and commercialisation landscape. It also works closely with UK medical regulatory companies, clinical research organisations, market research, and health economic bodies to offer simple and quick access to market opportunities in the UK.

Regional access points include:

KEY ORGANISATIONS

MediWales

Founded in 1992, MediWales is the life science network and representative body for Wales. We provide advice, support, and business opportunities, and promote collaborations for the life science and health technology community in Wales. We are an independent, not-for-profit limited company.

With over 160 members, our network is largely made up of life science organisations, pharmaceutical services, and medical technology companies. We actively encourage engagement with the clinical research community and our membership includes NHS Health Boards and Universities.

Our mission is 'The advancement of human life science in Wales.'

Our focus is creating opportunities for our members.

We support our community with one-to-one advice on market access, international trade, finance and funding, supply chain, and identifying collaborative partners. We run a popular events programme with topics including regulatory updates, NHS procurement, finance and funding, clinical unmet needs, medical technology. We also organise special interest groups in the areas of clinical trials, diagnostics, and wound healing.

Facilitating access to global trade opportunities, engaging with Government to align support with sector needs, and improving access to vital clinical expertise and facilities are key roles of MediWales. We recognise and celebrate our members' successes and promote the strengths of the sector within Wales and beyond.

KEY ORGANISATIONS

Scottish Development International

Zabeel Hall 1, Stand Z1B30

Scottish Development International (SDI) is a partnership between the Scottish government, Scottish Enterprise, and Highlands and Islands Enterprise - which works to attract inward investment to Scotland and helps Scottish based companies to trade overseas. SDI can provide a full inward investment support package to help your company discover all the benefits of investing in Scotland, and can open doors to a huge range of opportunities in funding, new technology, R&D, and training. From your initial enquiry onwards, SDI will provide inward investment support to help ensure the success of your Scottish venture.

UK Trade & Investment (UKTI)

Zabeel Hall, 1 Stand Z1D30
Concourse, Stand CC60

UK Trade
& Investment

UK Trade & Investment (UKTI) is the government department that helps UK based companies succeed in an increasingly global economy. Our range of expert services is tailored to the needs of individual businesses to maximise their international success. We provide companies with knowledge, advice, and practical support. UK Trade & Investment also helps overseas companies bring high quality investment to the UK's dynamic economy – acknowledged as Europe's best place from which to succeed in global business. We provide support and advice to investors at all stages of their business decision-making. UK Trade & Investment offers expertise and contacts through a network of international specialists throughout the UK, and in British Embassies and other diplomatic posts around the world. We can assist at all stages of the business planning cycle, from inception to completion. For an overview of what UK Trade & Investment does to foster companies' growth please visit www.gov.uk/ukti

KEY ORGANISATIONS

Welsh Government

Zabeel Hall 1, Stands Z1G30 / Z1H30
Zabeel Hall 7, Stand Z7K30

Llywodraeth Cymru
Welsh Government

The Welsh Government is committed to making Wales the best possible environment for Life Sciences innovation and business growth. Significant support is available for innovation, business growth, and international trade – with integrated programmes delivered in key areas such as medical devices, in-vitro diagnostics, wound healing, e-health, neuroscience, regenerative medicine, and pharmaceutical services. Combined with the £100 million Life Sciences Investment Fund, the largest dedicated investment fund for any sector in Wales, the launch in July 2014 of the Life Sciences Hub in the heart of Cardiff Bay has placed Wales on the world stage for Life Sciences innovation and development.

The Life Sciences Hub is the nerve centre of a vibrant and prosperous Wales Life Sciences ecosystem and brings together academic, business, clinical, professional services, and funding organisations to provide a commercially-driven melting pot of talent. NHS Wales has extensively digitised patient records, accelerated permissions for clinical trials, and invest over £40 million in research annually.

As a location Wales provides a dynamic, innovative culture for pursuing discoveries and new product developments.

Healthcare UK

Concourse Stand CC60

- 1 Victoria Street, London, SW1H 0ET
- +44 (0)20 7215 5000
- healthcare.uk@ukti.gsi.gov.uk
- www.gov.uk/healthcareuk

Healthcare UK is your route to accessing the expertise within the UK's healthcare sector spanning the National Health Service (NHS), private sector, and academia. Whatever type of health facility, service, or training programme you are planning, we can bring together the right UK organisations to meet your needs. Healthcare UK is a joint initiative between the UK Government's Department of Health, NHS England, and UK Trade & Investment (UKTI). We work with UKTI's extensive network of specialists in British embassies and other diplomatic offices around the world.

UK Trade & Investment

UK Trade
& Investment

Concourse Stand CC60

- 1 Victoria Street, London, SW1H 0ET
- +44 (0)20 7215 8086
- john.lownds@ukti.gsi.gov.uk
- www.gov.uk/ukti

UK Trade & Investment (UKTI) is the Government department that helps UK based companies succeed in an increasingly global economy. Their range of expert services are tailored to the needs of individual businesses to maximise their international success. They provide companies with knowledge, advice, and practical support. UK Trade & Investment also helps overseas companies bring high quality investment to the UK's dynamic economy - acknowledged as Europe's best place from which to succeed in global business. They provide support and advice to investors at all stages of their business decision-making. UK Trade & Investment offers expertise and contacts through a network of international specialists throughout the UK, and in British Embassies and other diplomatic posts around the world, and can assist at all stages of the business planning cycle, from inception to completion. For an overview of what UK Trade & Investment does to foster companies' growth please visit www.gov.uk/ukti

Cross Healthcare Ltd

Hall 2, Stand E70

- Unit 2a, Bandeath Industrial Estate,
Throsk, Stirling, FK7 7NP
- +44 (0)1786 817707
- +44 (0)1786 817708

ADL Smartcare Ltd

Zabeel Hall 1, Stand Z1G57

- Electric Works, Sheffield Digital Campus, Sheffield, S1 2BJ
- +44 (0)800 612 6845
- info@adlsmartcare.com
- www.adlsmartcare.com

Drawing on more than 5,000 years of combined professional experience and training, ADL Smartcare Ltd have developed systems that understand the fine detail of potential solutions, and risks, in the context of an individual's personal circumstances. Using their systems is like having an expert in your problem area at your side, so you can avoid choices that may put you at risk. Although many of the technologies they work with appear simple, based on nearly three million decisions, typically 80% are unsuitable for a specific individual. Their systems have been trusted by tens of thousands of people to provide them with safe, effective advice in the choices that they make.

@msoftesolutions

Blood360, known as Bloodhound in the UK, is the UK's leading blood tracking system, used in over 111 hospitals. Blood360 gives users advanced vein-to-vein traceability with full audit reporting. It reduces the risk of wrong blood being transfused and reduces wastage of blood within the hospital. The system also secures access to remote blood fridges, reduces laboratory process and is a 100% paperless system. MSoft will also be showcasing Sample360 - an all-in-one accurate solution that ensures Blood Samples are correctly labelled at the bedside. It reduces blood sample rejection rates to nearly zero, and reduces laboratory process.

Single Use Surgical manufactures and supplies high quality disposable instruments that have the functionality, look, and feel of re-usables; enabling hospitals to remove difficult to clean devices from their instrument trays, ultimately reducing the risk, and cost of, patient-to-patient cross-infections. The range includes over 150 designs of suction tubes and other fine cannula for neuro, spinal, ent, vascular, gynaecological and general surgery. At Arab Health 2016, Single Use Surgical will be showcasing a selection of specialist suction, as well as the new Mini Suction Irrigator and the revolutionary endoscope-i, which converts an iPhone into a mobile stack system.
